## Northwest Area (PL 3)

Fire Activity and Teams Assigned

## Totals

New fires:
New large incidents:
Uncontained large fires:10

CIMTs committed: 3
Type 1 IMTs committed:
Larch Creek, The Dalles Unit, Oregon DOF. IMT 1 (ODF Team 2). Fifteen miles south of The Dalles, OR. Brush, grass and timber. Active fire behavior with wind-driven runs and torching. Numerous residences threatened. Evacuations and road closures in effect.

Cow Valley, Vale District, BLM. CIMT (NW Team 6). Nine miles east of Ironside, OR. Brush and grass. Extreme fire behavior. Structures and sage-grouse habitat threatened. Road closures in effect.

Bonita Road, Vale District, BLM. Started on private land nine miles southeast of Ironside, OR. Brush and grass. Active fire behavior with flanking and backing. Sage-grouse habitat threatened.

Pioneer, Southeast Region, Washington DNR. CIMT (NW Team 12). Started on private land 10 miles southeast of Stehekin, WA. Timber, brush and grass. Active fire behavior with uphill runs, flanking and backing. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Salt Creek, Medford District, BLM. IMT 1 (ODF Team 1). Five miles southwest of Butte Falls, OR. Timber and brush. Moderate fire behavior with flanking, backing and creeping. Residences threatened. Road closures in effect.

Falls, Malheur NF, USFS. CIMT (NW Team 8). CIMT is also managing the Upper Pine fire. Twenty-six miles northwest of Burns, OR. Medium slash, timber and grass. Active fire behavior with uphill runs, wind-driven runs and long-range spotting. Structures threatened. Area and road closures in effect.

Upper Pine, Malheur NF, USFS. Twenty-three miles northeast of Burns, OR. Timber and grass. Minimal fire behavior with backing, creeping and smoldering.

River, Vale District, BLM. Eleven miles southwest of Adrian, OR. Grass and brush. Minimal fire behavior. Structures threatened. Reduction in acreage due to more accurate mapping.

Shoofly, Okanogan-Wenatchee NF, USFS. Sixteen miles northeast of Skykomish, WA. Timber and brush. Minimal fire behavior with creeping and smoldering. Road and trail closures in effect.

Huntington, Vale District, BLM. Started on private land one mile east of Huntington, OR. Grass and brush. Minimal fire behavior with smoldering.

## Predictive Services Discussion:

A dynamic and impactful dry lightning pattern will develop over portions of the West during the next 24-36 hours. Monsoon moisture increasing northward along the western periphery of the Four Corners High will fuel a significant increase in the coverage of dry thunderstorms over much of interior California, southeast Oregon, Great Basin, and the West Slope. Isolated sprinkles accompanied by a few lightning strikes cannot be ruled out for portions of California's Central Valley and Central Coast during the morning while a few nocturnal dry thunderstorms are anticipated Saturday night into Sunday morning. Isolated dry thunderstorms are also possible over the northern Rockies especially along/east of the Divide in central Idaho, Wyoming, and southcentral Montana.

Isolated to scattered mainly wet thunderstorms are expected in the Southwest, favoring Arizona. Outside localized gusty winds associated with isolated showers or thunderstorms, breezy westerly winds combined very low relative humidity will continue to bring elevated to locally critical conditions across northeast California, eastern Oregon, central and southern Idaho extending into the northern Rockies. Meanwhile, the heat will continue to build across the Rocky Mountains expanding into the central and northern Plains, with very low relative humidity. Hotter temperatures will expand eastward into much of the Southeast and Mid-Atlantic as well. Thunderstorms with pockets of heavy rain will linger over parts of southern New England.

Across Hawai'i, strong high pressure to the north of the islands will maintain breezy to locally strong trade winds through the weekend. A mostly dry pattern is expected with some brief/light showers possible for windward/Mauka areas. A strong upper-level low will dominate Alaska, especially the west, bringing more widespread wetting rains to the region.

## National Predictive Services Outlook

## 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Heat Stress.

[^0]:    * Brown, Buenos Aires NWR, FWS. Twenty miles north of Sasabe, AZ. Grass and brush. Moderate fire behavior with running, torching and flanking.
