## Predictive Services Discussion:

Alaska will have well above average temperatures, scattered showers and isolated thunderstorms with frequent lightning, and a breezy west-southwest wind. The Pacific Northwest, east of the Cascades, will see warmer temperatures today and low relative humidity, with Oregon possibly below $10 \%$. The Central Valley of California will see hot and dry conditions, with the relative humidity dropping to around $15 \%$. The Mojave and Sonoran Deserts will remain hot with very low relative humidity, while the greater Four Corners and the Intermountain West, will see a warming and drying trend continue. The northern Rockies will be warm and dry in the valleys. The Southern and Central Plains, into Texas, will see hot temperatures with a brief moistening trend, allowing for a chance of showers and thunderstorms, as well as breezy conditions. From the Mississippi Valley, east, hot and humid, along with scattered showers and thunders.
