Incident Management Situation Report Sunday, October 27, 2024 – 0730 MDT National Preparedness Level 3

National Fire Activity:

| Fire Activity and Teams Assigned | Totals |
|----------------------------------|------------------|
| Initial attack activity: | Light (61 fires) |
| New large incidents: | 1 |
| Large fires contained: | 2 |
| Uncontained large fires: | 11 |
| CIMTs committed: | 6 |
| NIMOs committed: | 1 |

Nationally, there are three fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

Understanding the IMSR

IMSR Map

One fire suppression crew from Parks Canada and one fire suppression crew from Saskatchewan, Canada are supporting fire suppression efforts in the Great Basin Area.

| GACC | Incidents | Cumulative Acres | Crews | Engines | Helicopters | Total Personnel | Change in Personnel |
|-------|-----------|---------------------|-------|---------|-------------|--------------------|------------------------|
| AICC | 0 | 0 | 0 | 0 | 0 0 0 | | 0 |

| Total | 64 | 1,113,108 | 66 | 201 | 35 | 4,336 | -310 |

Active Incident Resource Summary

| Southern Area (PL 3) | |
|----------------------------------|--------|
| Fire Activity and Teams Assigned | Totals |
| New fires: | 11 |
| New large incidents: | 0 |
| Uncontained large fires: | 2 |
| CIMTs committed: | 2 |
| NIMOs committed: | 1 |

NIMO Team 1 has been mobilized to assist Disaster Recovery Staff with organizing a safe, efficient and orderly transition from response to recovery in all hurricane impacted areas across the Southern Region.

Hurricane Helene Support – NC, North Carolina Forest Service. CIMT (NC State). Primary mission is to coordinate emergency road clearing efforts, perform damage assessments and deliver commodities throughout western North Carolina.

Rush, Wichita Mountains National Wildlife Refuge, FWS. CIMT (SA Team 1) mobilizing. Fifteen miles northwest of Lawton, OK. Grass and brush. Extreme fire behavior with wind-driven runs, flanking and backing. Numerous structures threatened. Area, road and trail closures in effect.

Low Water, Oklahoma DOF. Eight miles west of Jay, OK. Hardwood litter. No new information.

Predictive Services Discussion:

The majority of the country will continue to experience dry and unseasonably warm conditions today, with cooler temperatures are expected over the northwestern and northeastern tiers of the Lower 48 states. Record high temperatures will be prevail once again over central and southern Arizona into southern New Mexico, and the Gulf Coast states. Rain showers are expected to affect portions of Oregon and Washington, northern California, and northern Idaho. A few showers are also possible over the northern tier of New England as well as the Lower Mississippi Valley and the Carolinas. Minimum RH levels in the upper single digits and teens will be common in across the central and southern Great Basin, the deserts of California, Arizona and western New Mexico. Minimum RH levels in the 20s and 30s are expected across much of the lower elevations of the Rockies, Mississippi and Ohio Valleys, northeastern Mid-Atlantic States and the New England Metro. Gusty downslope winds will persist across portions of Montana and Wyoming as well as the northwestern Great Basin and southeastern Oregon. Moderate significant fire potential will continue for parts of the Northern Rockies, Rocky Mountains, the southwestern half of Arizona, Southern Area, and the southern and eastern tiers of the Eastern Area. Hot and dry conditions followed by sea breeze winds will maintain high-risk significant fire potential in across much of Louisiana, southern Alabama and Mississippi. Meanwhile, breezy west winds at 10-20 mph with higher gusts are forecast over the northern tier of the Northeast, which will create areas of elevated fire danger.

National Predictive Services Outlook

6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Fire Shelter Deployment.
