

**Incident Management Situation Report
Wednesday, October 30, 2024 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (87 fires)
New large incidents:	7
Large fires contained:	4
Uncontained large fires:	15
CIMTs committed:	4
NIMOs committed:	1

Nationally, there is one fire being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

This report will be posted Monday through Friday at 0730 Mountain Time unless significant activity occurs.

Southern Area (PL 3)

Fire Activity and Teams Assigned	Totals
New fires:	22
New large incidents:	3
Uncontained large fires:	6
CIMTs committed:	2
NIMOs committed:	1

NIMO Team 1 has been mobilized to assist Disaster Recovery Staff with organizing a safe, efficient and orderly transition from response to recovery in all hurricane impacted areas across the Southern Region.

Hurricane Helene Support – NC, North Carolina Forest Service. CIMT (NC State). Primary mission is to coordinate emergency road clearing efforts, perform damage assessments and deliver commodities throughout western North Carolina.

Rush, Wichita Mountains National Wildlife Refuge, FWS. CIMT (SA Team 1). Fifteen miles northwest of Lawton, OK. Timber, grass and brush. Moderate fire behavior with backing, smoldering and flanking. Numerous structures threatened. Area, road and trail closures in effect.

* **Cimarron Bend**, Oklahoma, DOF. Two miles north of Cashion, OK. Grass and timber. Extreme fire behavior with wind-driven runs, group torching and long-range spotting. Numerous structures threatened. Evacuations and road closures in effect.

* **Euchee Creek**, Oklahoma DOF. Four miles southeast of Cushing, OK. Grass and timber. Extreme fire behavior with wind-driven runs, long-range spotting and group torching. Numerous structures threatened. Evacuations in effect.

* **Indian Creek**, Oklahoma DOF. Five miles southeast of Seiling, OK. Grass and timber. Extreme fire behavior with wind-driven runs and long-range spotting.

Rupe-Market, Oklahoma DOF. Five miles south of Garber, OK. Grass and timber. Minimal fire behavior with smoldering. Structures threatened.

Second Mtn, Oklahoma DOF. Two miles north of Battiest, OK. Timber. No new information.

Predictive Services Discussion:

A strong cold front will move from the Plains into the Great Lakes, Mid-Mississippi Valley, and East Texas. Widespread showers and scattered thunderstorms will develop near and ahead of the front, with the heaviest rain from the western Great Lakes through the Lower Missouri Valley into northeast Texas and eastern Oklahoma. However, breezy westerly winds are likely to continue across the southern High Plains of eastern New Mexico and West Texas, with areas of elevated conditions as relative humidity falls to 10-20%. Areas of elevated conditions are likely to continue in the Lower Great Lakes as well before rain moves in overnight. Above normal temperatures and dry conditions will continue in the Southeast and along much of the East Coast, but relative humidity will remain elevated and generally above 40%. Another upper-level cold front will move through the Northwest and into the northern Rockies, northern Great Basin, and northern California. Widespread light to moderate precipitation will fall across these areas, with snow levels running 6,000 to 7,000 feet ahead of the front, and 4,000 feet behind the front.
