#### Incident Management Situation Report Sunday, January 19, 2025 – 0730 MDT National Preparedness Level 2

### National Fire Activity:

| Fire Activity and Teams Assigned | Totals           |
|----------------------------------|------------------|
| Initial attack activity:         | Light (12 fires) |
| New large incidents:             | 0                |
| Large fires contained:           | 0                |
| Uncontained large fires:         | 4                |
| CIMTs committed:                 | 1                |
| Type 1 IMTs committed:           | 2                |
| NIMOs committed:                 | 0                |

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

## **Understanding the IMSR**

### IMSR Map

### This report will be posted Monday - Friday at 0730 Mountain Time unless significant activity occurs.

Eight MAFFS C-130 airtankers and support personnel have been deployed to Port Hueneme, CA to support wildland fire operations in southern California. Their respective units are as follows: 153rd Airlift Wing (WY Air National Guard), 302nd Airlift Wing (CO Air Force Reserve), 146th Airlift Wing (CA Air National Guard), and 152nd Airlift Wing (NV Air National Guard).

Two crews and two overhead personnel from Alberta, Canada, and one crew and one overhead personnel from British Columbia, Canada have been deployed to southern California to assist with wildland fire operations.

Two CL-415 aircraft from Quebec, Canada have been deployed to southern California to assist with wildland fire operations.

| Ten Year Average                | Quantity |
|---------------------------------|----------|
| Fires (2015 – 2024 as of today) | 619      |
| Acres (2015 – 2024 as of today) | 8,423    |

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

# **Predictive Services Discussion:**

Onshore flow will continue across southern California today but will weaken overnight. Dry weather will continue for much of the rest of the West with below normal temperatures, although a few snow showers remain possible in the central Rockies. A Nor'easter will develop along the East Coast during the day, with heavy snow likely from West Virginia into central and Southern New England. Strong north to northwesterly winds are expected behind the storm across the Mid-Atlantic and Northeast, while locally heavy lake-effect snow showers will fall down wind of the Great Lakes. Very cold, arctic air will spread across much of the Plains to the East Coast, with temperatures remaining below zero in the northern Plains and Upper Midwest, with below freezing temperatures overnight to the Gulf Coast and central Florida. Lighter precipitation will fall along the south coast of Alaska, with light snow in the western Interior, while strong Chinook winds gusting to 60 mph continue to affect portions of the central and eastern Interior north of the Alaska Range. Very dry conditions are expected across Hawai'i under moderate to breezy trade winds.

## National Predictive Services Outlook

# 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Constructing Line Without a Safe Anchor Point.
