

**Incident Management Situation Report  
Tuesday, January 28, 2025 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

<b>Fire Activity and Teams Assigned</b>	<b>Totals</b>
Initial attack activity:	Light (39 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires:	3
CIMTs committed:	0
Type 1 IMTs committed:	2
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

**[Understanding the IMSR](#)**

**[IMSR Map](#)**

**This report will be posted Monday - Friday at 0730 Mountain Time unless significant activity occurs.**

Eight MAFFS C-130 airtankers and support personnel have been deployed to Port Hueneme, CA to support wildland fire operations in southern California. Their respective units are as follows: 153rd Airlift Wing (WY Air National Guard), 302nd Airlift Wing (CO Air Force Reserve), 146th Airlift Wing (CA Air National Guard), and 152nd Airlift Wing (NV Air National Guard).

Two crews and two overhead personnel from Alberta, Canada, and one crew and one overhead personnel from British Columbia, Canada have been deployed to southern California to assist with wildland fire operations.

Two CL-415 aircraft from Quebec, Canada have been deployed to southern California to assist with wildland fire operations.

### Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

<b>Ten Year Average</b>	<b>Quantity</b>
<b>Fires (2015 – 2024 as of today)</b>	<b>1,191</b>
<b>Acres (2015 – 2024 as of today)</b>	<b>17,410</b>

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

## **Predictive Services Discussion:**

An upper-level low will move through the Southwest, with widespread showers, falling as snow above 4,000 to 6,000 feet. Snow showers are also expected across the Greater Four Corners, while moisture from the Gulf of Mexico brings rains showers to the southern Plains overnight. Dry and seasonable conditions are expected across the northern half of the West, with strong inversions in many valleys. A fast-moving storm will move through the Great Lakes and Northeast bringing light to moderate snowfall, with snow heaviest in northern New England and the Adirondacks. Dry conditions are expected in the Southwest, with locally breezy downsloping west winds on the east slopes of the Appalachians. Very cold air will continue to spread across Alaska today, while showers gradually end in the panhandle. Cool, but drier conditions are expected across Hawai'i under light north winds.
