

Single Engine Airtanker/Scooper Pilot Mission Evaluation

- Link: <https://forms.office.com/g/QJZmiJZ9bc>

- QR Code:

- Prior to clicking the submit button you must highlight the evaluation, right click, click print and save as pdf to be able to send to the pilot via email.
- Pilots should request mission evaluations when checking into the FTA.
- Aerial Supervisors are responsible for filling out the mission evaluation, and completion of an AAR/debrief with the pilot(s).
- Aerial Supervisors are encouraged to fill out an evaluation at any time. Unsatisfactory performance should be followed up with a mission evaluation and notification to the Program Manager.
- This does not take the place of the Safecom system used to identify, document, track and correct safety related issues. <https://www.safecom.gov/about>
